Education

Queen Mary, University of London

September 2011 –Present

BSc Computer Science—First Year Average: 78.5%

Modules Included: Information Systems Analysis (93%), Object Oriented Programming (81%)

Academic Achievements

- Created a front-end Graphical User Interface for a program that creates an artificial brain with Darwinian Architecture.
- Completed a project in a group for my Software Engineering module, in which we created part of a general practitioner's surgery information system.

Aquinas College Sept 2008 –June 2011

Stockport, Cheshire. A-Level's

B Computing

C Maths

D Information Technology

Harrytown High School Sept 2003 –July 2008

Stockport, Cheshire. GCSE's

A Mathematics, Religious Studies

B English (Double Award)

Also: 7 other GCSEs all graded A to C.

Technical Skills

Seven years of programming experience, with several languages and platforms:

- Java, Visual Basic
- HTML/XHTML, Javascript, CSS, XML, MySQL, PHP, Zend Framework, Processing Java
- Eclipse, Visual Studio, TortoiseSVN, MySQL Workbench, Microsoft Office

I have completed several technical projects in my own time, including a program to create custom network graphs, various websites for friends and a weather application for Android. It is my greatest ambition to be able to make a career out of the technological and programming skills that I've acquired.

Work History

Queen Mary University of London

Teaching Assistant and Peer Assisted Mentor (PASS)

Sep 2013 –Apr 2014

I am an active participant of the Teaching Assistant and Peer-Assisted-Student-Support schemes at my university. Both of these schemes provide me with the opportunity to improve my communication skills and at the same time to help others.

- As a Teaching Assistant, I help first year undergraduates with their programming module which helps me to gain a better foundation of programming myself as well as improving my ability to explain concepts and procedures to other people.
- Through the PASS scheme I mentor undergraduates with issues ranging from helping with coursework to emotional support.

Database Administrator/Manager, Omnia-Med Educational Programmes Ltd Jun 2010 –Aug 2012

- Mobile Optimised Website (PHP)-mobile website created using the Zend Framework
- Record Refinement (SQL) -managed data within database to avoid redundancy and Data Migration (SQL) imported over 5,000 records of unformatted data
- Network Solution-created network cables to join networks together
- System Domain Change (System Administration) -completed a company-wide system update; researched company names during company re-branding

Team Member (part time), Odeon & UCI Cinemas Cinema Group Ltd Oct 2013 –Feb 2014

Worked as part of a team in a busy West End Odeon Cinema in Leicester Square, the job gave me an opportunity to improve my teamwork and customer service skills.

Temporary Sales Assistant, PoundStretcher Ltd. Oct 2009 –Jan 2010

Worked during the Christmas period; my role included stocking shelves, stock taking, helping customers, working on the tills and taking phone calls.

Interests and Achievements

Technology -I spend the majority of my time programming; I enjoy making all sorts of programs in order to achieve a broad range of skills in each programming language that I undertake.

Music -Took piano lessons for 6 years, culminating in achieving a pass with merit at grade 5 level from Trinity Music College in 2010

Sport -Played for a local football team for 7 years from 1998 –2005, in which I was the goalkeeper. These spare time activities have given me my organisational skills, as I have had to balance my time between working, education and participating in a large array of extra-curricular activities.
